Invocation and options

- `\documentclass[xetex,compress,slidetop,9pt,aspectratio=169]{beamer}`
 - `xetex` activate macros for use with \LaTeX .
 - `aspectratio=169` 16:9 display format (without the 4:3 format is used). The 16:9 implies the navigation “headline” on the right instead on the top of the slide
- `\usetheme<[options]>{Lannion}`
 - `serif` use a standard serif font (ignored if option `font=...` is used)
 - `font={Ubuntu}` use any other font installed on your system
 - `noheadline` to not use navigation headline (or sidebar if `aspectratio=169` is used)
 - `nologo` does not display the Orange logo and changes coloring to a more private one
